

Releasit[®] Encap-1 DS[™]

THE ORIGINAL HI-PERFORMANCE ENCAPSULATION SHAMPOO

Releasit started the encap revolution when the first jug of Encap-Clean DS rolled off the line. In the years that followed, it went on to set the benchmark for encapsulation detergents in the carpet cleaning industry. In 2011, Encap-Clean DS underwent a product reformulation to make it better for using in a spray application. The new version was renamed Encap-Clean DS2.

But it turns out that some folks still want their original Releasit formula. Perhaps they're nostalgic for the product that earned them wheelbarrows full of money. So we've decided to offer both. Encap-1 reintroduces the original Releasit formula in all its encap glory. After all, it's always been a hi-performance superstar. Now you can choose Encap-Clean DS2, or the original – renamed Encap-1. **The revolution continues.**
